

# Data Science Ambassador (DSA) program

November 4, 2022

# DSA program

- Sponsored by Data Science Institute
- We are currently in the 5th cohort of DSAs
- DSAs are graduate students nominated by their college
- DSAs are champions for data science literacy in different colleges

# CSS DSA

Rongbo Jin

School of Government  
and Public Policy

The DSA in your college/program is a resource who can help researchers and educators by:

- Addressing questions related to data science through consults, training, and/or referrals to the right resource and experts on-campus or online
- Developing training or other data literacy programs that are specific to needs to you and your discipline/college.

# SBS DSA

Salena Torres Ashton

School of Information

The DSA in your college/program is a resource who can help researchers and educators by:

- Addressing questions related to data science through consults, training, and/or referrals to the right resource and experts on-campus or online
- Developing training or other data literacy programs that are specific to needs to you and your discipline/college.

# Selection Process

## Eligibility:

Priority will be given to UArizona graduate and professional students who have:

- Completed at least one year of their program
- Demonstrated an interest in data science literacy
- Support from the nominating college

Nominations are due **May 2023**

Each college at the University of Arizona is eligible to nominate ambassadors.

Coordinate nominations with your constituent departments or divisions.
